

This hospital surprise bill rating is updated monthly and therefore may have changed since posting to the website. Please contact the hospital to confirm that any hospital-based physicians providing services to you are participating in the network(s) and accept your benefit plan prior to services being rendered. Please see the online directory search for full details regarding a hospital's demographic data, including address and contact information.

This hospital surprise bill rating only includes the following hospital-based provider types that are participating hospital-based physicians or practitioners: (1) anesthesiologists, (2) pathologists, (3) radiologists, and (4) emergency medicine physicians. A green X-mark indicates the in-network presence of one of the aforementioned hospital-based specialty groups. A red X-mark indicates the absence of an in-network particular type of hospital-based specialty group. A green N/A indicates that the in-network hospital does not provide that particular hospital-based specialty group. The Surprise Bill Rating reflects the number of in-network hospital-based provider types, ranging from 0, denoting no specialties are in-network, to 4, which means all specialty groups are in-network.
